Style Guide:

Discussion Items:

Relationship Between General Education Outcomes and Core Outcomes

● Need to get feedback to EAC by March 11th regarding the relationship between the recently approved General Education Outcomes (GEOs) and PCC's Institutional Student Learning Outcomes (ISLOs) which are currently called Core Outcomes.

Cultural Literacy

● Continue discussion of including a course with a Cultural Literacy designation in the General Education requirements for the AGS, AS and AAS degrees.

Video Attendance of Meetings

● Recently we realized the capability of having members and guests attend the DAC meetings in SY 233B via Zoom Meeting. What sort of norms and expectations should we develop as a committee surrounding video attendance of our meetings?

Upcoming Discussion Items:

Membership

● Currently the Curriculum Committee and the Degrees and Certificates Committee have different voting memberships. The EAC bylaws stipulate for the Curriculum Committee "The voting membership is comprised entirely of faculty." but are mute in regards to the voting membership of the Degrees and Certificates committee. Current practice on the Degrees and Certificates committee is to include advisors and administrators in the voting membership.
● Historically the student member position on the Degrees and Certificates committee has been vacant. We have been fortunate to have a student member the last two years. Initially the student member was assigned an non-voting roll, with little discussion. Would there be advantages to having the student representative be a voting member?
