

General Safety Program & Responsibilities - Appendix E: Health & Safety Manual Chapter Applicability Guide

H&SM Chapter	Chapter Title	Status	Notes	Dept Procedures	Dept Training
1	General Safety Program & Responsibilities	Active	Applies to all management and staff at PCC		
2	Accident/Incident Investigation	Active	Applies to all management and staff at PCC		
3	Safety Committees Charter	Active	Applies to all management and staff at PCC		
4	Bloodborne Pathogens Exposure Control Plan	Active	Applies to departments in which employees are exposed to blood, body fluids or specimens that are potentially infectious	Yes	Yes
5	Confined Space Entry	Active	Applies to departments in which employees enter confined spaces (tanks, pits, vaults, sumps, sewers, air handlers, etc.) for any period		
6	Electrical Safety	TBD	TBD		
7	Hazardous Material Emergency Response Plan	Active	Applies to departments that have chemical inventories; dispose of fats, oils, and grease; fuel or operate vehicles, aircraft engines or gas/diesel powered equipment; or may be required to respond to spills of hazardous materials	As Needed	As Needed
8	Hazard Communication	Active	Applies to departments that have chemical inventories and/or use chemicals; use office supplies, hand sanitizer, or cleaning compounds containing hazardous chemicals	As Needed	Yes
9	Chemical Hygiene Plan	Active	Applies to departments that work in/support science laboratories or science laboratory activities involving hazardous chemicals	As Needed	As Needed
10	Control of Hazardous Energy - Lockout/Tagout	Active	Applies to departments that have equipment that is serviced, maintained, or repaired in which the unexpected energizing, start-up, or release of stored electrical, hydraulic, pneumatic, gravitational, potential, kinetic, thermal or chemical energy or radiation could cause injury.	Yes	Yes

H&SM Chapter	Chapter Title	Status	Notes	Dept Procedures	Dept Training
11	Noise & Hearing Conservation	Active	Applies to departments that have equipment or processes that expose workers to noise levels equal to 85 dBA or higher		
12	Personal Protective Equipment	Active	Applies to departments that have exhausted all feasible engineering and administrative hazard controls and must rely on personal protective equipment (PPE) to protect employees		
13	Hazardous Building Materials	Active	Applies to departments that interact with building structures that contain hazardous building materials, such as asbestos, lead, radon, silica, etc.		
14	Powered Industrial Trucks, Material Handling Vehicles, and Powered Mobile Equipment	Active	Applies to departments that operate forklifts, powered pallet jacks, scissor lifts, powered mobile scaffolding, diesel or electric utility carts, floor or road maintenance vehicles, and earth moving equipment	Yes	Yes
15	Mechanical Hazards - Controls and Facility Safety	TBD	TBD		
16	Hot Work	Active	Applies to departments that have operations that generate heat, smoke or flames	As Needed	
17	Respiratory Protection	Active	Applies to departments that require employees to wear respiratory protective equipment or allow employees to use respiratory protective equipment on a voluntary basis	As Needed	
18	Contractor Hazard Notification	Active	Applies to departments that oversee contractors, vendors, or service providers working on PCC property		
19	Industrial Hygiene Program & Air Monitoring Results	TBD	TBD		
20	Fall Protection Program	Active	Applies to departments with employees working at heights 4 feet or more above lower surfaces, e.g., roof tops, loading docks, etc.		

H&SM Chapter	Chapter Title	Status	Notes	Dept Procedures	Dept Training
21	Regulated Waste	Active	Applies to departments that generate infectious waste, sharps, hazardous wastes (ignitable, corrosive, reactive or toxic wastes), used oil and petroleum products, fluorescent bulbs, ballasts, or batteries of any type		
22	Environmental Protection & Stewardship	Active	Applies to departments generating regulated wastes, recycling materials, storing materials in above ground or underground storage tanks and those departments where chemicals could flow to a drain or storm drain		
23	Cranes, Hoists, and Slings	Active	Applies to departments which operate cranes, hoists, lifts, wash racks and other equipment that elevates or conveys materials off the ground	Yes	Yes
24	Heat Illness Prevention Plan	Active	Applies to departments that have employees working in conditions in which the apparent temperature reaches 80 degrees F or higher	Yes	Yes
25	Wildfire Smoke Protection Plan	Active	Applies to departments that have employees working outdoors when the local air quality index (AQI) exceeds 35.5 ug/m ³ of smoke resulting from a wildfire	Yes	Yes
26	Scaffold Safety Plan	Active	Applies to departments erecting or using scaffolding at PCC (does not apply to operation of scissor Lifts)	As Needed	As Needed
27	Compressed Gas Safety Plan	Active	Applies to departments storing, transporting, or using compressed gases, including but not limited to propane, LPG, carbon dioxide, compressed air, breathing air, and refrigerants	As Needed	As Needed
