PCC is Partnering with Oregon Shines to Save you Money

Community solar gives renters, homeowners, businesses and nonprofits the opportunity to support local solar projects while saving money on your electricity bill. PCC joined Oregon Shines' Community Solar program in 2020. Since then, we have been saving carbon and money. Now, PCC is inviting members of the public to join in. During the month of February, Oregon Shines will make a \$25 donation to a PCC scholarship that supports students studying renewable energy for each new subscriber that references PCC when they sign up.

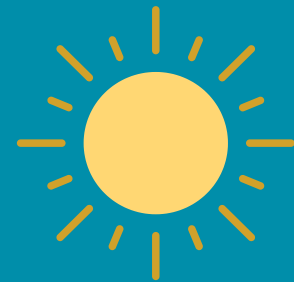

Red Prairie Community Solar Project

If you are a customer of PGE or Pacific Power you are eligible to sign up and start saving 5% on your electricity bill!

[For more information view the press release on our website.](#)

How It Works

- Subscribe to a Project
- Start Generating
 - Once your project comes online, your subscription will generate a certain amount of electricity each month.
- Earn Credits
 - You will receive a bill credit on your monthly utility bill.
 - The amount of your bill credits depends on the amount of electricity your subscription generates.
 - You pay a subscription fee for your credits, but your credits will always be greater than the fee.

Sign up [Here](#).

You will need a recent utility bill.

Make sure to mention that you were referred by PCC.
